Jerkbait

The Emerald Shiner BaitBall Jerkbait is ideal for situations in which predators are targeting smaller forage. Available in one size: the suspending jerkbait mimics group of shiners erratically searching for security. The super fine detail and assortment of colors give anglers the extra advantage, especially in gin-clear water conditions.

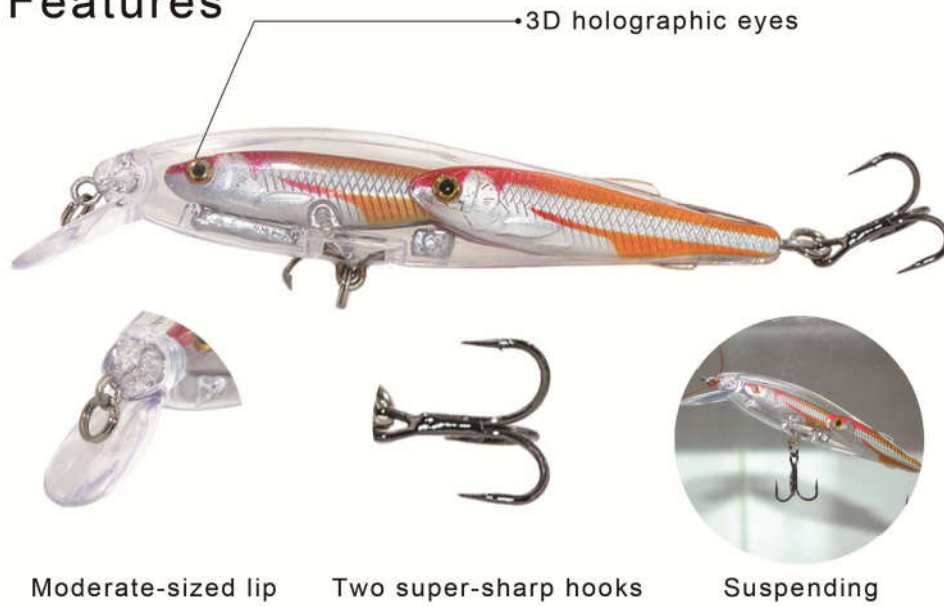

- Imitates a cluster of minnows
- Suspending
- Weight transfer system for long casts
- Erratic action

Crankbait

The Threadfin Shad BaitBall Crankbait is the right tool when Juvenile Shad move out to mid-range depths. The CHMN27 dives from 6'-8'. The high flash characteristics are delivered with a mix of hot foil and soft paint patterns to create a competitive advantage of unmatched realism.

- A perfect match to a natural baitfish hatch
- Medium dive lip
- Dives quickly and holds in the strike zone longer

Popper

The Minnow BaitBall Popper is built on the foundation of Mother Nature's own balance of predatory feeding behavior and baitfish survival. The realistic pattern mimics tiny distressed minnows and is ideal when saltwater game fish feed near the surface. It features excellent castability and on the retrieve, the popper makes a deep 'blooping' sound, generating a subtle surface commotion to attract predators. Also available with fresh water.

- Ideal for predators feeding on baitfish on or under the surface
- Pop it, spit it, walk it
- Summons fish from long distances
